

# CDC GUIDELINES TO TRAVEL 2021

## DOMESTIC TRAVEL

[Things to know before you travel](#)

[What to know if you MUST travel](#)

[Getting tested before and after travel](#)

[Checking Travel Restrictions](#)

[Considering Types of travel and where to stay](#)

## INTERNATIONAL TRAVEL

**Requirement for Proof of Negative COVID-19 Test or Recovery from COVID-19 for ALL Air Passengers Arriving in the United States**

## FACEMASKS

CDC has issued an order that requires face masks to be worn by all travelers while on public transportation. People must wear masks that completely cover both the mouth and nose while awaiting, boarding, disembarking, or traveling on airplanes, ships, ferries, trains, subways, buses, taxis, and ride-shares as they are traveling into, within, or out of the United State's and U.S. territories.

## DELAYING TRAVEL

Some people should not travel. People who are sick, have recently tested positive for the virus that causes COVID-19, or have been exposed to a person with COVID-19 pose a very high risk to others during travel.

This page gives advice on when and how long these people should postpone travel to avoid spreading infection.

## TRAVEL RISKS

If you must travel, learn which travel activities are safer and take the following steps to protect yourself and others from COVID-19.

Keep in mind that getting from one place to another is just one piece of the travel risk. Your activities and who you interact with before, during, and after travel may increase your risk.

## TRAVEL MAP & NOTICES

This page shows a visual map of the Risk Assessment Level for COVID-19 for each country.
